Please join us once again for this popular networking event. This annual celebration has largely a social purpose in bringing together the diverse interests of the Construction Industry in common recognition of our important role in building a better New Jersey and improving the quality of life of all our citizens. Recently, there has been increased emphasis on the need for transportation funding and other infrastructure issues as well as construction's positive impact on our economy. Each year we have government and industry leaders as our guests to bring messages focused on New Jersey's future and the Construction Industry's place in it.

The registration form is included for your convenience. Register early as space is limited and this is a sellout event.
